NOTE: STAFF MEMBERS PLEASE INITIAL.

**Request for Special Examiner.**

- Joe Walter for the Civil Engineering Technician 3 exam

**Request from the Metropolitan Sewer District that the position of Chemist be advertised as open-to-the-public/exceptional appointment.**

The staff recommended that if there were qualified eligible employees within the City Service, the promotion would be more appropriate. Ms. Head indicated that the position has traditionally been filled using the exceptional process, but most often resulted in appointing individuals within MSD. Several employees indicated that they wished a promotional process be utilized. The Commission approved announcing the vacancy as a promotional to determine the number of eligible candidates within MSD and the City.

**Request from the Metropolitan Sewer District to add a Wastewater Collection Supervisor and two Engineering Technical Supervisors to their table of organization.**

The staff recommended approval of this request. After review and discussion, the Commission approved the request. This decision was based on the fact that the staff has reviewed the duties and level of responsibility and believes that these classifications are appropriate for the work performed. Budget approval will have to be obtained from the Office of Budget & Evaluation.

**Request from the Water Works Department to add an Electronic Technician 1 and an Electronic Technician 2 to their table of organization.**

The staff recommended approval of this request. After review and discussion, the Commission approved the request. This decision was based on the fact that the staff has reviewed the duties and level of responsibility and believes that these classifications are appropriate for the work performed. Budget approval will have to be obtained from the Office of Budget & Evaluation.

**Request from Joe Harrison, AFSCME president, and Maurice Patmon, Welder Helper, to address the Commission regarding the fact that the Welder position was announced open-to-the-public.**

The staff indicated that the position was announced open to the public because there was concern that there were not enough eligible candidates within the City. There was also a question raised regarding the CDL requirements. The Commission directed the staff to research the CDL issue first. After a determination is made as to whether it is required, we can determine if enough internal candidates are available for promotion. If so, the staff recommended a promotional process first followed by an open process if necessary.

**Request from Bryan Schmitt to address the Commission regarding the fact that Facilities Management is planning to underfill a Senior Accountant position with an Accountant.**

The staff recommended no action other than to determine that the person filling the position would perform work at the appropriate level. The Civil Service Commission cannot prohibit underfilling as long as the person is not performing duties outside the proper classification.

**Request from the Metropolitan Sewer District to waive the qualifications for Sewers Chief Engineer and to temporarily promote Edward Kesterman into that position.**

The staff recommended approval of this request. After review and discussion, the Commission approved the request. This decision was based on the fact that there are not three eligible employees who meet the minimum time in grade for promotion. MSD has requested to allow the next lower level Engineer to also be considered which would give them four qualified candidates to choose from. Waiving of the qualifications will be on a one-time only exception.

**Request from the Health Department to fill the Nursing Director position through the open-to-the-**
